SCA36Symposium2018@orzancongres.com

Thursday, June 28

18.00 h. Registration desk opens

18.00 h - 22.00 h. Arrival of delegates

Friday, June 29

09.00 h - 09.10 h. Welcome address

Manuel Arias. *President of the Organizing Committee*

María Jesús Sobrido. *President of the Scientific Committee*

09.10 h - 11:00 h. Session I: Epidemiological and clinical research

09.10 h. Spinocerebellar ataxias: a historical overview

José Ángel Berciano

09.40 h. Worldwide epidemiology of SCA36

María Jesús Sobrido

10.00 h. SCA36 families from Albacete

Oscar Ayo

10.15 h. Plenary discussion

10.30 h. Selected brief communications

11.00 h - 11.30 h. Coffee break

11.30 h - 11:45 h. Meeting inauguration by local authorities

11.45 h - 13.45h. Session II: Update on clinical research in SCA36 and other ataxias

11.45 h. From the pre-ataxic stage to clinical follow-up of Costa da Morte ataxia

Manuel Arias

12.05 h. SCA37: from bedside to pathology and molecular substrate

Carmen Serrano

12.25 h. Otoneurology of ataxias

Joanna Jen

12.55 h. Evaluation and treatment of hearing loss in SCA36

Torcuato Labella

13.10 h. Evaluation and treatment of balance impairment in SCA36

Andrés Soto

13.25 h. Plenary discussion

13.45 h - 15:15 h. Lunch and poster viewing

15.15h - 17.30 h. Session III: Neuropathology and pathomechanisms of SCA36

15:00 h. Potential multisystem involvement and pathomechanisms of Asidan ataxia/SCA36

Koji Abe

15:45 h. Neuropathology of SCA36 - Costa da Morte

Beatriz San Millán

16.10 h. RNA toxicity

Willfried Rossoll

16.40 h. Plenary discussion

17.00 h. Selected brief communications

17:30 h - 18:00 h. *Coffee break*

18.00 h – 19:50 h. Session IV: Cellular and animal models in SCA36 and related disorders

18:00 h. Mouse models of C9ORF72 and SCA36

Leonard Petrucelli

18:35 h. Zebrafish models of ataxias

Laura Sánchez-Piñón

19:00 h. SCA37: another repeat-insertion causing ataxia

Isabel Silveira

19:30 h. Plenary discussion

21:30 h – 24:00 h. *Dinner*

Saturday, June 30th

09.00 h - 11.20 h. Session V: Therapeutic approaches

09:00 h. Functional rehabilitation in ataxias and motor neuron disease

FEGEREC

09:30 h. Gene therapy for repeat expansion disorder

TB Announced

10:00 h. Stem cell and regenerative therapies for ataxia

TB Announced

10:30 h. Symtomatic and disease-modifying therapeutic for the ataxias

Michael Strupp

11:00 h. Panel discussion

11:20 h - 11:45 h. *Coffee Break*

11:45 h - 12:00 h. **Concluding remarks**

12:00 h - 12:30 h. **Closing address**
