Dear ESHG Members,

The ESHG has a long tradition of (co-)organising courses which aim at young professionals in all areas and subspecialties of Human Genetics. A number of its courses are run at Bertinoro in Italy, others are organised by ESHG members and their respective institutions.

The ESHG will provide fellowships to especially enable students from low-income countries to attend, in addition to those from more privileged countries who can pay their way.

Below you will find a list of featured courses and other educational events for the year 2020. More information is available on the [ESHG website](#).

Sincerely,

Bill Newman
Chair, ESHG Education Committee
